MessyWorks is all about Women. So why shouldn't we support a cause that affects women? Did you know that:

* Breast cancer is the most commonly diagnosed cancer in American women (excluding skin cancer).
* Breast cancer remains the second leading cause of cancer-related death in women, second to lung-cancer.

*In 2004
-An estimated 215,990 new cases of invasive breast cancer were diagnosed in the United States.
- An estimated 40,110 of the cases resulted in death.
-If detected early, the 5 year cancer survival rate for localized breast cancer is 97%.

Early detection is the key to saving lives, but many

low-income people can not even afford the minor procedures for detecting the cancer, let alone the expenses associated with the treatment of the disease.

Wouldn't it be great if a cure could be found? Well, they are working on it, but in the meantime, funds are needed to help with the research and treatment.

That's where we come in. MessyWorks is looking to do a show or a series of shows dedicated to women and their cause: Breast Cancer. A portion of the proceeds will go to benefit breast cancer research and treatment via the Susan G. Komen Breast Cancer Foundation.

Any girls interested are encouraged to let us know as soon as possible.

No plans have been made , but

we will be looking into the possibility as soon as we have enough interest.
